# It's the arrival of the FITTEST.

## FOR THE ALL-NEW TAHOE

compact pickup truck, adding 30-inch legroom, expanding over 100 cubic ft. increased space in all seats, but all exceptional features. Like Tahoe's standard 48-hp V8 with a power-tilt seat (plus door handles, quick-turn and strength—up to 400 lb., towing capacity). It's standard performance. Tahoe's independent coil-over, double-wishbone suspension is totally redefining what it means to "drive like a truck." And it's proof. It tells you how far the new Tahoe has come and how much more it has to go.

NO MORE STOP. For a moment and without Tahoe's confident presence. Its build, its look, its feel. Notice its rounded shape, which moves so smoothly through the air. With its many power windows, long seats, heated seats, a lot of standard features, Tahoe has established new norms for the compact truck world. Tahoe has been the underestimating compact. But in America, that's just what's needed. Tahoe has arrived.

## TOYOTA'S RESEARCH AND DEVELOPMENT

is putting off no one, neither giving ground at all - and taking from America its innovative skills. Strong steel suspension skills. Fully independent coil spring, double wishbone suspension helps keep your front wheels in constant contact with the driving surface and improves steering, control and off-road. Drive-shaft rear coil springs provide a more comfortable ride and greater handling stability when carrying large loads. Tacoma not reaches new levels of performance with its high ground clearance of 11.6 inches\* and suspension 11 inches of front-wheel travel.

**LOCKING 4-WHEEL DRIVE** is a considerably lighter than most locking competition units. Allowing more control when maneuvering out of deep snow. Standard on all Tacoma 4x4. High-performance lock and gears, steering, with precision-machined gear.

As shown in these pictures, this locking system and its 4-wheel drive system.
